NP Week 2017
California Association for Nurse Practitioners
Blue Ribbon Campaign

California Association for Nurse Practitioners (CANP) is celebrating National Nurse Practitioner Week this year by wearing blue ribbons during the week of **November 12-18**. Inspired by similar efforts conducted by individual chapters in the past, the campaign has proven extremely popular since adopted by CANP in 2011.

Please pass ribbons out to chapter members as well as NPs at work to promote CANP and National Nurse Practitioner Week. Patients, visitors, doctors, medical staff and NPs will ask what the blue ribbon means which gives us the opportunity to explain what NPs do.
